

Data only application form

This is an example template of the data only application form researchers will complete when submitting an application for access to the UK Biobank resource.

A. Application details

All projects have an initial duration of **36** months

A1. Project title (maximum 200 characters):

A2. Please provide an outline of the research you intend to undertake (maximum 2000 characters):

A3. Please select up to six keywords that describe the intended research:

A4.1. Can you confirm that you intend to use UK Biobank data to perform health-related research?

We define health related research as any research which ultimately aims to improve human health.

Yes Not Sure

A4.2. Can you confirm that you intend to use UK Biobank data to perform research in the public interest?

This includes research likely to be considered in the public interest as it could provide an evidence base for decisions likely to benefit the society and quality of life of people.

Yes Not Sure

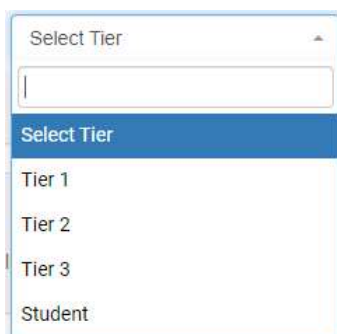

A5.1. Is the intended research output potentially considered contentious?

For example, research findings that could be interpreted as being sexually or racially discriminating or could (reasonably be considered to) stigmatise certain population sub-groups.

Yes No Not Sure

B. Selection of data-fields

B1. Please select a data tier:

The image shows a screenshot of a web form's dropdown menu. The menu is titled "Select Tier" and is currently open, showing a list of options: "Tier 1", "Tier 2", "Tier 3", and "Student". The "Select Tier" text is also visible at the top of the dropdown list.
